

RECOMMENDATION

The following combinations of gauges are used by some professional cellists:

- Evah Pirazzi A & D medium gauge combined with Evah Pirazzi Soloist G & C.
- Professional musicians also combine the Evah Pirazzi Soloist A & D strings with gut core G & C strings. Or even only the Soloist A with gut core D, G & C strings.

Please note that each change of the gauge of one string will lead to a different sound of the remaining three unchanged strings.

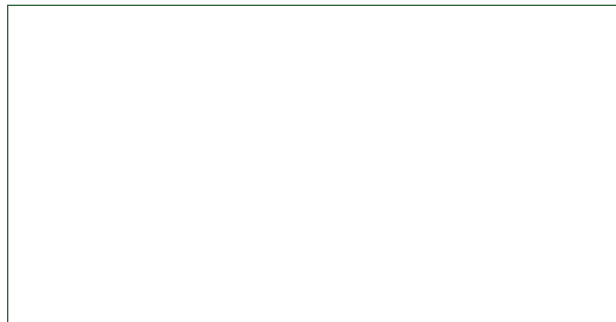

THE FOLLOWING MUSICIANS PLAY EVAH PIRAZZI CELLO STRINGS:

Julius Berger, Solo Cellist, Germany
Lynn Harrell, Solo Cellist, USA
Frans Helmerson, Solo Cellist, Sweden
Richard W. Hirschl, Chicago Symphony Orchestra, USA
Gary Hoffman, Solo Cellist, Frankreich und USA
Daniel Müller-Schott, Solo Cellist, Germany

CELLO STEEL CORE STRINGS EVAH PIRAZZI EVAH PIRAZZI SOLOIST

I'm so happy I Can't stop playing!

Strings Handmade in Germany

CELLO STEEL CORE STRINGS EVAH PIRAZZI

Sound Characteristics

- Steel core string set which offers brilliance and a great dynamic range.
- Impressive harmony across the strings not only in respect of sound but also regarding playability.
- The A & D strings have a warm and round core sound, which is combined with an impressive brilliance.
- There is a very smooth transition from the D to the G string, which continues and deepens the radiant sound picture of the D string.
- The set is rounded off with the powerful C string providing resonance to the whole instrument.
- From pianissimo to fortissimo the response is immediate and the playability is outstanding.
- The individual construction of the gauge weich, mittel and stark results in clear differences in sound pictures.
- Gauge "weich" – very warm sound.
- Gauge "stark" – big volume and more brilliant sound.
- Designed for longevity.

Description

- A & D strings: steel core wound with chrome steel.
- G & C strings: newly designed rope core wound with tungsten.

Gauges

- weich/soft – low string tension.
- mittel/medium – medium string tension.
- stark/strong – high string tension.

Sizes

- available in $\frac{3}{4}$ and $\frac{3}{4} + \frac{1}{2}$ size.

The string set for small instruments has the same construction pattern as the full size set: the A & D strings have a steel core wound with chrome steel and the G & C strings have a newly designed rope core which is wound with tungsten.

Due to the small diameter of the strings the response is fast.

Powerful and brilliant sound, great playability, perfect set harmony and long durability – all this at an attractive price!

CELLO STEEL CORE STRINGS EVAH PIRAZZI SOLOIST

Sound Characteristics

- Powerful steel core string set with a complex, but also focused and clear sound which offers the full range of colours.
- The Soloist A & D strings offer more brilliance than the standard strings and the Soloists G & C have a more pronounced core sound combined with a fantastic bass tone.
- The diameter of the Soloist strings is smaller than the one of the standard set. This makes fast changes of position especially easy and the response is therefore even faster.
- The pliable feel and the sound under the ear provide the musician with a subtle and distinct acoustic feedback.
- The tension is comparable to the tension of the standard medium gauge.
- Designed for longevity.

Description

- A & D strings: steel core wound with chrome steel.
- G & C strings: newly designed rope core wound with tungsten.

Gauges

Evah Pirazzi Soloist for cello is available in medium gauge.
